The future starts today

LEK-AM Pharmaceutical Company Ltd.
is expanding both on the Polish pharmaceutical
market as well as on international markets.

LEK-AM combines a homogeneous product portfolio, efficient leadership and highly skilled employees, that allows the company to quickly gain recognition in the pharmaceutical industry.

Presently LEK-AM is one of the fastest growing pharmaceutical companies in Poland. A rapid rate of growth in terms of sales and revenues, combined with a top quality of products offered, has turned LEK-AM into phenomenon on the market. After more than 20 years of existence we were among the TOP 10 Polish companies on the Polish pharmaceutical market. LEK-AM's products have been awarded and honored with prestigious awards granted by both consumers and the medical community. LEK-AM's manufacturing technologies comply with GMP and IFS requirements and products for clinical research are manufactured in accordance with GLP.

	Panthenol			

CELTHER

The future of biotechnology

CEL THER

CELThER POLSKA is a dynamic, innovative biomedical enterprise that has been present on the market since 2009.

CELThER

For 13 years, the company has specialized in the development of cell lines, medical devices and regenerative cosmetics, the quality and safety of which has been confirmed by patents and scientific research to improve the health and quality of life of patients.

The company's greatest asset is its strong research and development base, which allows us to create innovative products in the field of cell engineering, medicine and skin care. The core of the company's research and development department are scientists who develop specialized cell lines with potential application in civilization diseases, such as: oncological, neurological, diabetic and cardiological diseases.

All the production is conducted at the highest and most rigorous standards, according to ISO 13485:2016-04 and ISO 22716:2007. The company has been granted 16 patents and created over 50 products and over 30 cell lines. CELThER's products have been awarded and honored with prestigious awards granted by press and consumers.

For more information, please visit our website www.celther.com

The future of biotechnology

Our product portfolio consist of cosmetics and dermocosmetics (COS), based on patented ingredients and newest research. From early 2023 it will be further developed with new forms of Food Supplements (FS) and Medical Devices (MD) in liquid forms: syrups and drops.

Our products has been present on the Polish market for over 10 years now.
