ANSWERS TO QUESTIONS ASKED TO KNOW THE MARKET

The Ordering Party provides below the content of the inquiry received by the Ordering Party on July 17, 2023 along with an explanation.

Question:

„The price for commercial quantities and R&D may vary depending on the quantities you need. Before giving a solid quotation, we need to know your timelines, R&D quantities and commercial quantities.

Once we have a full picture, we will proceed with the quotation”

Answer:

currently we need 1.3 kg. By mid-2025, there will still be a maximum of 1 kg.

There is a field in the form to enter the price for current orders - up to 2 kg.

Below the quantities in the future:

Task	Dates	API [kg]
1	07.2023 – 03.2025	Current order: 1,3 kg Maybe additional order of 1 kg required
2	04.2025 – 02.2026	Max. 20 kg
6	08.2026 – 03.2027	Optional amount (not sure whether will be ordered)– 10 kg
7	02.2027 – 07.2027	Approx. 20 kg

For commercial market we have not finished our estimation yet.
